

Xenosirens: Whitepaper

"Own the Song of the Stars"

1. Introduction

The universe hums with forgotten songs — melodies lost in the collapse of ancient civilizations.

Xenosirens are the echoes of these celestial beings, captured and reimagined as living NFTs, each uniquely generated with visual forms and haunting soundscapes.

Xenosirens is not just a collectible project — it's a journey into staking, evolution, community lore-building, and the eventual **Awakening** of a new digital mythos.
